Since 1956

SCHUMACHER IRRIGATION, INC.

Irrigation & Liquid Handling Solutions

T-Bolt Hose Clamps

These heavy duty t-bolt hose clamps can be used for both agricultural and industrial usage. Main applications include agricultural irrigation hoses, vehicles, and the construction industry.

Zinc Plated

Advantages:

- Zinc plated band, bolt & nut provide high corrosion protection*
- High torque test
- Beveled band edges eliminates the chance of hose damage
- Smooth underside are gentle on hose & reduce the risk of leakage
- High tensile bolt ensures threads are not damaged even on repeated tightening.
- Heavy duty washers provides extra protection to the nut & bolt.
- Reinforced loops provides higher stability
- Hollow roller provides high uniform torque, plus protection to band
- 3 welding points provides increased security for larger sizes
- Uniquely designed bridge gives optimal hose protection
- Designed for sealing both suction & pressure hoses

Construction:

Bolt: T Head Grade 8.8

Available in ZINC PLATED, HYBRID, or ALL STAINLESS STEEL

All Stainless Steel

Diameter Size (mm)	Diameter Size (inches)	Part Number	Band Width (inches)	Band Thickness (inches)
