SCHUMACHER

IRRIGATION, INC.

Irrigation & Liquid Handling Solutions

Standard and Custom-Built Fittings

Quality Underground & Above Ground Fittings:

- Irrigation
- Liquid Waste
- Industrial

Schumacher Irrigation manufactures quality standard & custom-built fittings for agricultural irrigation, liquid waste, & industrial applications. Schumacher fittings are available in black steel, galvanized steel, powder-coated steel, or aluminum.

The galvanized & powder-coated fittings provides excellent flow characteristics and is virtually impervious to weather and chemicals. The gasketed underground fittings require no solvent welding and therefore less labor.

*Schumacher Irrigation can provide fittings to ensure a successful installation.
