

Cast Iron Gate Valves

Schumacher Irrigation cast iron gate valves are designed for use in agricultural, commercial, and industrial applications for irrigation, potable, turf, golf course, and waste waters. The non-rising stem design is ideal for confined installations. These heavy-duty valves will provide years of quality use.

Advantages:

- Cast Iron Body
- Non-Rising SS Stem
- Bolted Bonnet
- Flanged Ends
- Epoxy Coated-Internal & External
- Hand Wheel Control
- Resilient (Rubber) Wedge
- Full Port Flow
- Optional 2" Operating Nut

Pressure Rating:

- Class 125
- 125 WSP to 450° F
- 200 psi WOG
