ORDERING INFORMATION

Locate the Berkeley nameplate on the pump which is normally on the motor bracket as shown. Provide all nameplate data when ordering to be sure of receiving correct parts. The **BM (Bill of Material)** number, also known as the catalog number, is most important when calling in for repair instructions, or when ordering replacement parts.

PUMP ROTATION

Pump operational rotation is sometimes stamped on the nameplate along with the Model Number and is indicated as **CW** or **CCW**. Refer to illustration to see how this rotational direction is determined. Standard rotation for most models is **CW**.

CW – Clockwise

CCW – Counter-Clockwise
