# HIGH PRESSURE RINGLOCK

## THE SCHUMACHER PACKAGE

Weld on heat treated couplers of high tensile 356 alloy assure no slip and high pressure reliability. Available in 6" - 12" sizes and interchangeable with most steel couplers.

Extra heavy duty steel ringlock clamps for positive connections of pressure main line.

"T" blanks, elbow blanks, and weld cones mean custom fabrication the way you want it — either at the factory or in the field.

*Suggested maximum working pressures:*

SIZE	PRESSURE
6"	150 lbs.
7"	150 lbs.
8"	150 lbs.
10"	125 lbs.
12"	90 lbs.

.051 GAUGE PRESSURE REQUIREMENTS FURNISHED UPON REQUEST
